Faculty

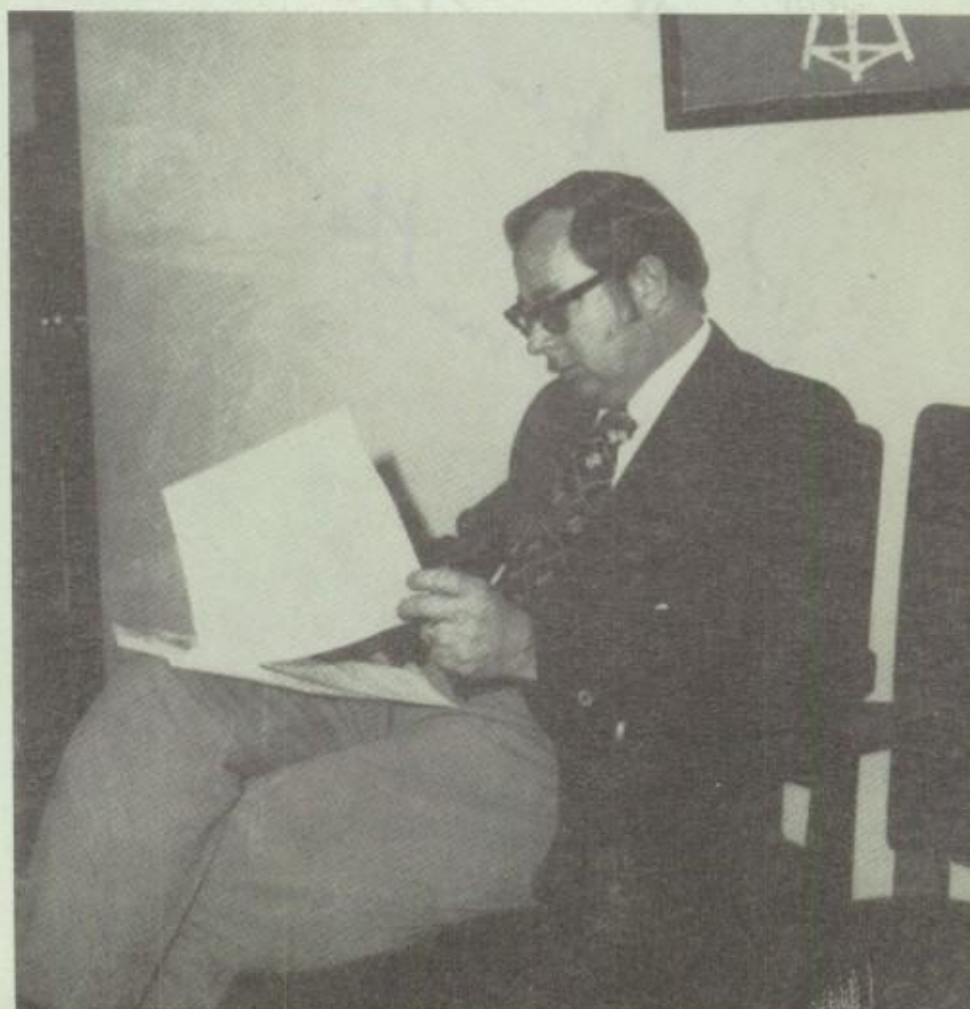

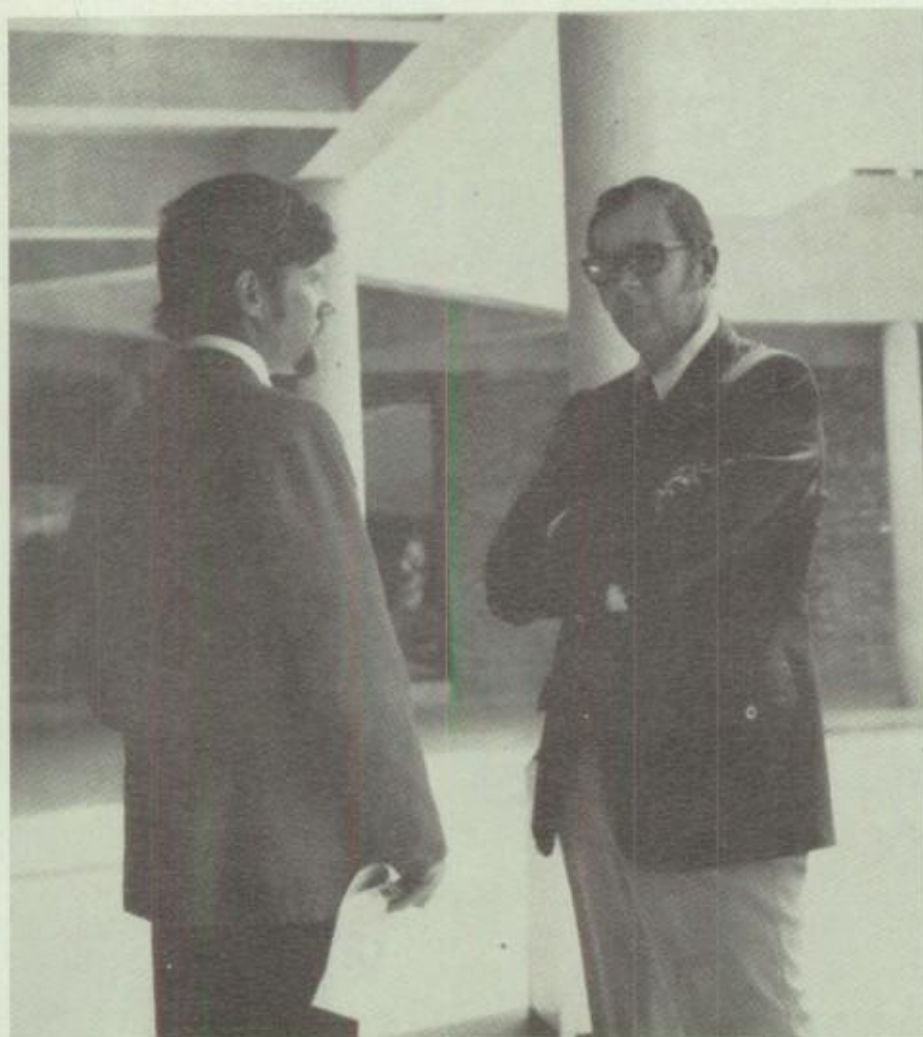

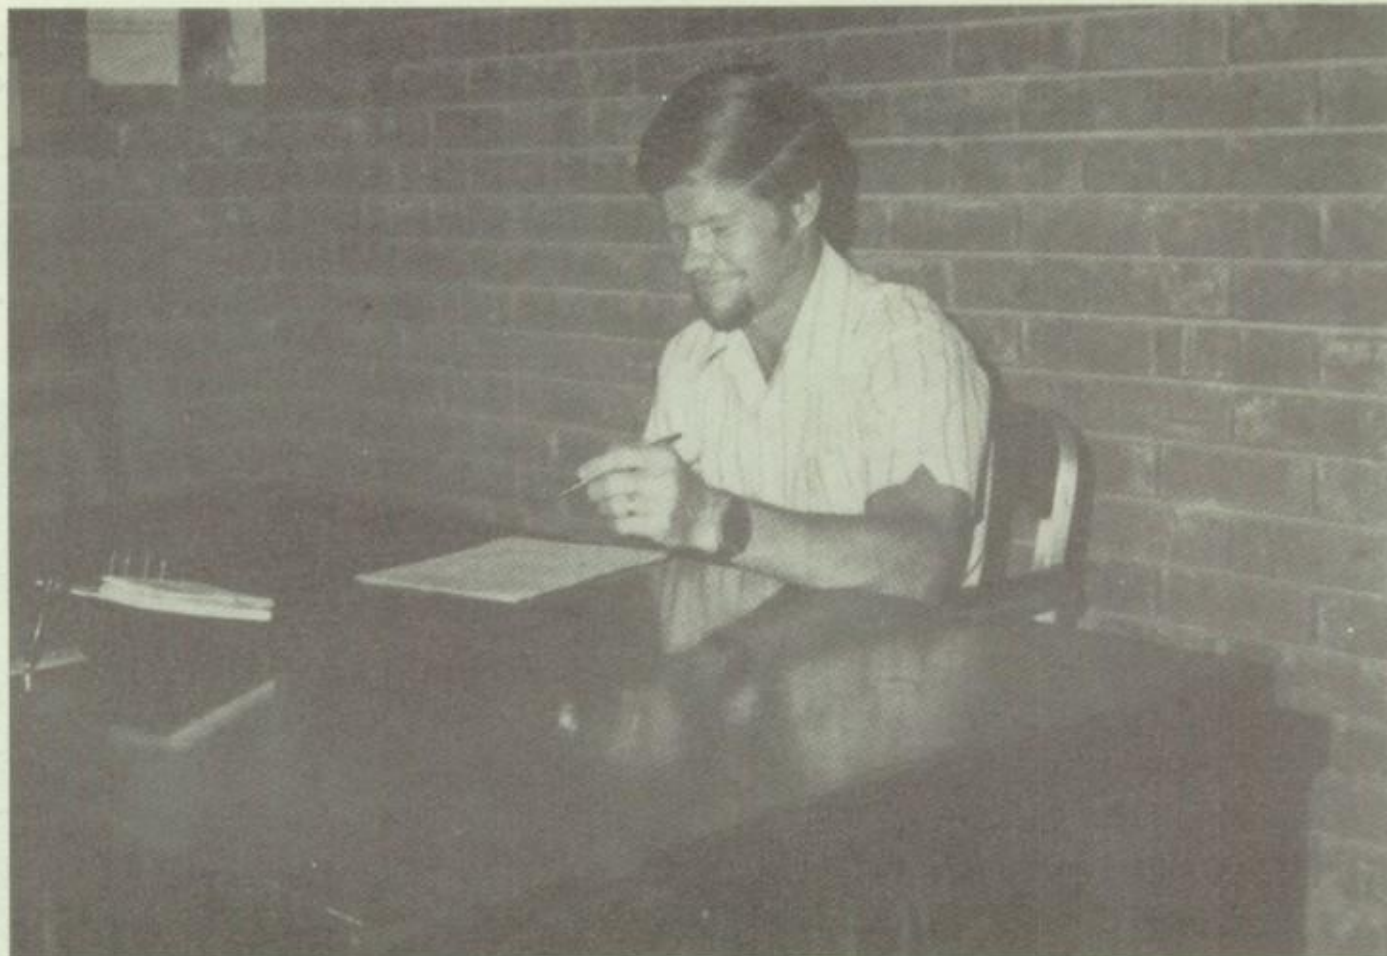

For many of us at ISI the 1973-74 school year has been one of adjustment. With ten new faculty members coming to ISI from abroad and with a completely new administration, students have had to adjust to different philosophies and personalities. The newcomers have also had to adjust to a new environment and a new way of doing things. But the adjustment has taken place and as a result ISI is a much stronger institution having drawn upon the strength and the lessons of both the past and present. I look forward to an even better school year in 1974-75. To those students who will be leaving ISI at the close of this year and especially to our graduating seniors, I wish the best of everything to each of you. May you succeed and be happy in all that you endeavor to do.

Taraki at ISI

June, 1975 will herald the completion of ISI's theater (shown above) and gymnasium.

The theater will have both an indoor auditorium and an open-air arena with stages back to back and dressing rooms serving both areas. The indoor theater also will have a projection booth for showing films and will possess a seating capacity of 450.

Inspired by the traditional Greek theater, the open-air arena will accommodate 600 persons on brick-edged terraces planted with grass.

Not shown here, but indicated on the architect's plans on TARAKI's inside covers, is the gymnasium, which will have a high ceiling for a basketball court, a sunken rubber floor and a maximum spectator capacity of 600. Adjoining the gym will be a locker and shower wing and a snack bar.

My Bank

Habib Bank's phenomenal growth is the result of long years of dedicated effort in the field of banking—for the cause of progress and prosperity of Pakistan. Branches in every nook and corner of the country; overseas branches and foreign correspondents around the world; computer installations; direct inland and international teleprinter lines and a large number of special services and facilities at all levels, have made Habib Bank 'my bank' to millions.

Pan Am 747!

Fly the big exciting way from Karachi!

Round-the-world Services

The First Class lounge is reached by a spiral staircase.

Passengers aloft choose from a wide variety of exquisitely prepared food.

Room to roam is ample in the Economy section.

Now you can fly Pan Am 747 - the plane that's a ship, the ship that's a plane. The plane with all the room in the world takes off from Karachi four times a week each way for the U.S.A. via Europe or the Far East.

Planning your trip

If it's done right, planning your trip abroad can be almost as enjoyable as going. We have the answers to your questions and are willing and able to help you with every single aspect of your trip.

Help once you're there

We don't believe an airline should say goodbye at an airport. Because sometimes things crop up that you could use some help with. The odds are wherever you are, we've got an office. We can help you with just about anything you need.

Confidence in Pan Am

When you fly Pan Am you're flying on the airline that helped develop and introduce virtually every major aircraft ever used in commercial service. Including the greatest of them all. The 747. And we were the first airline to fly 2 million passengers on the 747.

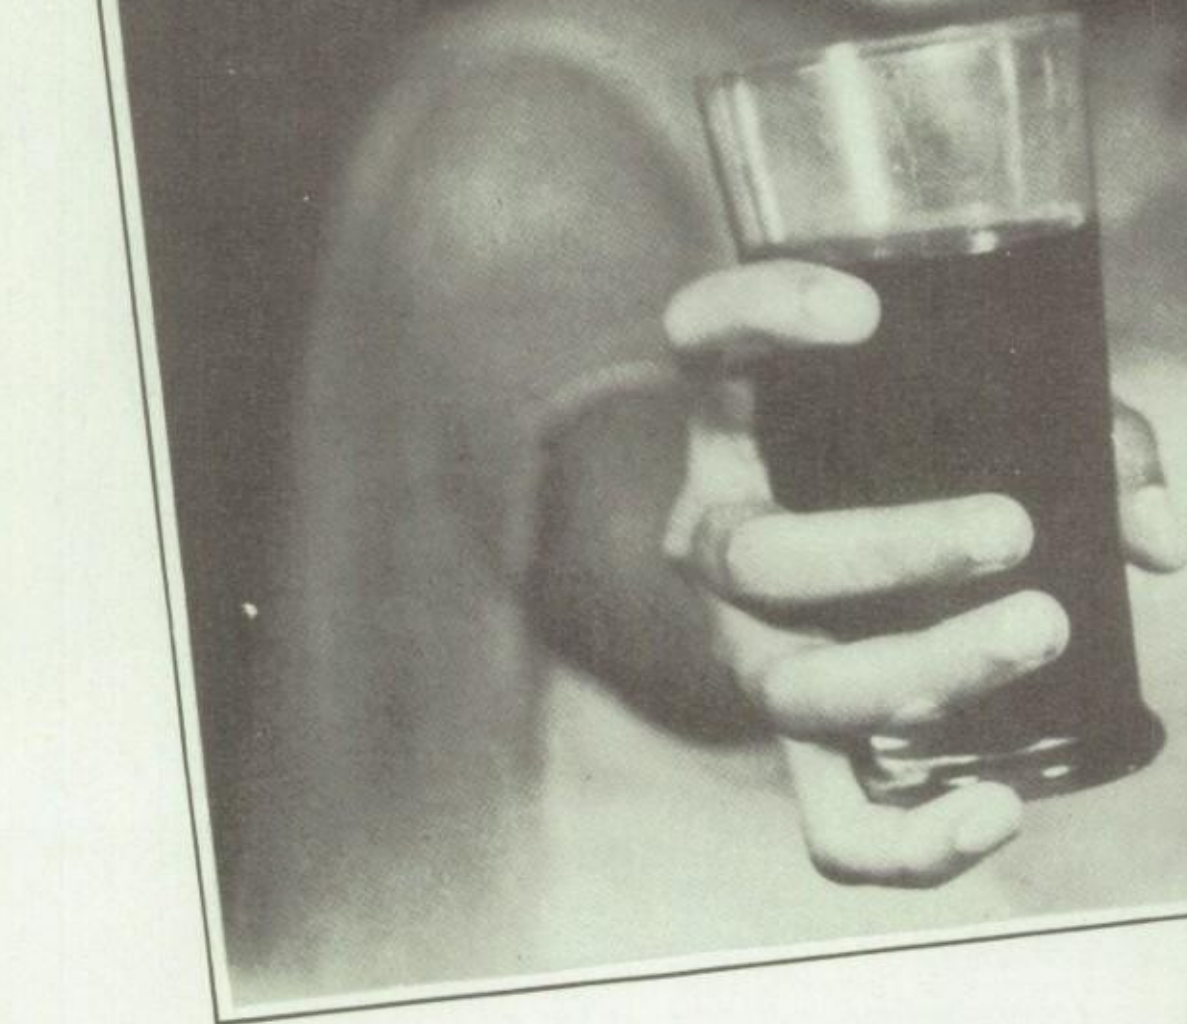

There. Now that you know what an airline should do for you, all you have to do is pick an airline that can do it. At the moment we can think of only one.

Pan Am

World's most experienced airline

"Roads have been misleading us for ages

**They run past barren lands, rocks and sands,
from one spring to another, serving the
needs of man**

**And if any of them ventures to cross a desert,
it seeks roundabout ways to take a rest in
an oasis now and again**

Owing to the airplane we have learnt the shortcut."
